

ENVIRONMENTAL POLICY

Steel Mains recognises that its operations impact upon resource use, air, water and land.

It is Steel Mains policy to achieve and maintain a high standard of Sustainable practices to minimise its businesses' effect on the Environment.

Specifically, it is Steel Mains policy to:

- Comply with all applicable environmental laws and regulations and other requirements to which Steel Mains is subject to and uphold the spirit of the law;
- Provide the support and resources necessary to ensure compliance with the requirements of the Company, environmental laws and regulations and other requirements;
- Ensure that its employees, contractors, visitors and suppliers are informed about this policy and are aware of their environmental laws and regulations and other requirements;
- Seek continuous improvement by monitoring environmental performance against periodically reviewed objectives and targets by taking into account evolving knowledge and community expectations;
- Ensure that it has management systems to identify, control and monitor environmental impacts arising from its operations. These systems will be used to facilitate continuous improvement in environmental performance;
- Report and record environmental incidents and initiate remedial action to improve performance, rectify damage and prevent recurrent incidents;
- Conduct research and establish programs to conserve resources, minimise wastes, improve processes and protect the environment.
